

L&G's Model Portfolio Service (MPS)

Cost and charges (September 2026)

L&G's MPS cost and charges

We know that getting value for money is important to investors, whatever their goals are. That's why we seek to leverage our size and scale as one of the UK's largest investment managers to find cost efficiencies and pass these savings to your clients through competitively priced MPS solutions.¹

The only certainty in investing is cost. We aim to help your clients' investments to grow over time, through compounding of returns, and the biggest detractor to this is high costs. That is why cost-effectiveness is a key pillar of our MPS service.

Charges explained

- The total charges associated with L&G's MPS include:
 - Ongoing charges fee (OCF)
 - Discretionary portfolio management fee

Models	Index	Blended	ESG

Key Risks

The value of an investment and any income taken from it is not guaranteed and can go down as well as up, and the investor may get back less than the original amount invested. Past performance is not a guide to future performance.

Important Information

The information in this document is for professional investors and their advisers only. This document is for information purposes only and we are not soliciting any action based on it. The information in this document is not an offer or recommendation to buy or sell securities or pursue a particular investment strategy and it does not constitute investment, legal or tax advice. Any investment decisions taken by you should be based on your own analysis and judgment (and/or that of your professional advisers) and not in reliance on us or the Information.

This document does not explain all of the risks involved in investing in the investment strategy and are not final. No decision to invest in the investment strategy should be made without first speaking to the Client Relationship Manager.
